## **DETAILED ACTION**

Claims 1-18, 21-24, 26, and 28 are pending and in condition for allowance.

## Information Disclosure Statement

The information disclosure statement (IDS) submitted on 15 AUG 2007 was correctly filed. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the IDS was considered by the Examiner. Please refer to Applicant's copy of PTO-1449, submitted herewith.

The IDS filed 29 AUG 2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It is in the application file, but the information referred to therein has not been considered.

## Reasons for Allowance

Applicant's invention is drawn to phenylalanine derivatives and methods of using those derivatives in the treatment of diabetes and related disorders. There is no art which anticipates or renders Applicant's invention obvious. The closest prior art is U.S. Patent No. 7,157,490 B2, issued January 2, 2007. The '490 patent also discloses phenylalanine derivatives and methods of using those derivatives in the treatment of diabetes and related disorders. However, while there are structural similarities between the instantly claimed derivatives and those disclosed in the '490 patent, the '490 patent does not meet each and every structural limitation of the instantly claimed compounds. Therefore, Claims 1-18, 21-24, 26, and 28 are ALLOWED.

Art Unit: 1626

## Telephone Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael P. Barker whose telephone number is (571) 272-4341. The examiner can normally be reached on Monday-Friday 8:00 AM- 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Joseph K. McKane, can be reached at (571) 272-0699. The unofficial fax phone for this group are (571) 273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is viable through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
